25X1 Early September 1949

1. About 40 trucks were parked in front of the hangars of the NEURUPPIN (N 53/Z 49) airfield.

15 September 1949

2. The truck convoy was no longer seen.

24 September 1949

3. The flieger Kaserne south of the hangars were not occupied to capacity. Only one fifth of the buildings were illuminated at night. No aircraft were observed. A square area in the northwestern section of the field was surrounded by a board fence and had a roofed, high lookoutpost at each of the four corners.

25X1 Comment:

It may be assumed that some of the army or air force units previously quartered in the kaserne have left. This needs confirmation. An air unit is not assumed to be stationed in NEURUPPIN.
